DIARY NOTES

9 October 1958

1. I attended the Cabinet Meeting to represent the Director in the discussion of "Operation Alert 1958." (See Memorandum For the Record dated 10 October 1958.)

2. I attended a luncheon with Lyman Kirkpatrick, [REDACTED] and Bob Macy, 25X1A9a Chief, International Division, Bureau of the Budget, and stayed for part of their discussion after lunch. Mr. Macy's interest was in the evaluation of programs and from the conversation I assumed that he meant PP Programs. However, his approach was one of having these action programs planned, coordinated, reviewed, etc., by a Country Team and it seemed to me that this was something which he should discuss with the Department of State rather than look to CIA to carry the ball. After all, the effectiveness of a Country Team is usually directly proportional to the interest which the Ambassador takes in making it effective. [REDACTED] told me later that the discussion continued along this line until three o'clock. Mr. Macy has now expressed a desire to meet with General Cabell. I will talk to him about this and make arrangements for Mr. Macy to see him. 25X1A9a H

3. I spoke to the Junior Officer Trainees. They seemed to be a very alert and receptive group.

25X1A6a

4. I visited [REDACTED] with [REDACTED] to participate in the Conference which the Comptroller's Office is conducting for a number of its key people. 25X1A9a
